

“Ah”

Please redo as per example recording.

Anniversary + Laugh

Can you redo this with a shorter laugh -no longer than 3 seconds, please.

“Yes love, I think I almost have them all”

Please do this faster, with less of a pause in-between. Maximum 3.5 seconds long.

Crying

Good, I think I will use this. Well done 😊

I am a little concerned with the audio volume/quality on this one, but I think that it will work.

“Got quite scruffy”

I will try to use this recording no need to redo.

“That’s it, my love. The last one”

Please redo this while referring to the recording I have sent. The “That’s it” part should sound different.

“I wish I could have grown old with you Grace.”

Please refer to the recording I have sent and make another recorded version. The previous versions were great. I just want to try another variation.

End line- “shall I get stated on the house”

This is good, I will use one of the two recordings that you gave me.
